PROFESSIONAL SUMMARY

Result-driven Frontend Developer with experience in building highly responsive, scalable web applications using React.js, JavaScript (ES6+), and Tailwind CSS. Adept at integrating complex REST APIs and real-time WebSockets via Socket.io. Proven track record of optimizing application performance, enhancing frontend architecture, and delivering clean, user-centric digital experiences.

TECHNICAL SKILLS

Programming Languages:	JavaScript (ES6+), HTML5, CSS3, TypeScript
Frontend Technologies:	React.js, Redux Toolkit, React Router, Tailwind CSS, Responsive Design
Backend & APIs:	Node.js, Express.js, REST APIs, Socket.io, MongoDB
Tools & Platforms:	Git, GitHub, Vercel, Render, Postman, Cloudinary
Core CS Concepts:	Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), DBMS

EXPERIENCE

Vitoxyz Jul 2025 – Jul 2026

Frontend Developer

- Developed and deployed highly responsive web applications using React.js, Tailwind CSS, and optimized REST APIs.
- Built SEO-friendly pages and engineered reusable UI components, improving Google Lighthouse performance scores by 20%.
- Collaborated with cross-functional product teams to deliver scalable features, micro-services, and production-ready applications.
- Optimized application frontend performance through advanced code splitting, lazy loading, and asset minification, resulting in 30% faster page load times.
- Maintained modular frontend architecture and clean code guidelines, achieving a 15% reduction in feature development time across multiple projects.

PROJECTS

AI Mock Interview Platform Live | GitHub *React.js, Node.js, MongoDB, Gemini AI*

- Developed an AI-powered mock interview platform using React.js, Gemini AI, Clerk authentication, and MongoDB for personalized interview preparation.
- Built resume-based and role-based interview workflows that generate dynamic technical, behavioral, and HR questions based on candidate context.
- Implemented AI-powered answer evaluation and feedback covering communication, technical accuracy, strengths, weaknesses, and improvement areas.
- Developed a coding interview module with Monaco Editor, multi-language code execution, hidden test cases, AI code review, and complexity analysis.

Skills-Tracker Live *React.js, MERN Stack, Cloudinary, AI API*

- Developed a comprehensive MERN-stack Skills Learning Tracker with dual-layer security featuring JWT and Email OTP verification.
- Built a gamified web platform incorporating user engagement systems including XP metrics, daily streaks, badges, and analytical progress tracking dashboards.
- Engineered an automated revision scheduling system utilizing the SM-2 Spaced Repetition Algorithm alongside integrated learning logs.
- Integrated external AI Assistant APIs to dynamically auto-generate personalized technological roadmaps based on user inputs.

EDUCATION

Rajasthan Technical University, Kota, Rajasthan 2020 – 2024

Bachelor of Engineering in Computer Science Engineering *CGPA: 7.5 / 10*

Bihar School Examination Board, Patna 2018 – 2020

Intermediate (XII) – PCM

Bihar School Examination Board, Patna 2017 – 2018

Matriculation (X)
